# ART EXPLOSION®
Business Card Factory® Deluxe 3.0

The Fastest, Easiest Way to Create Business Cards.... and More!

DESCRIPTION

*W*hen it comes to making business cards that express your professional image, no one knows your business better than you do. Now with Art Explosion® Business Card Factory® Deluxe 3.0, you can create customized professional business cards in just minutes.

Business Card Factory is incredibly simple to use, so you don't need to be a computer whiz. And with more than 4,200 ready made layouts for virtually every business under the sun, you don't need to be an artist either.

Choose from professionally crafted designs in hundreds of styles and color combinations—even designs for vertical and folding business cards. Then easily customize the text, adding your name and contact information to Business Card Factory's built-in profiler.

If you prefer, you can create your own unique designs using more than 41,000 premium-quality clip art images and 600+ professional fonts. Business Card Factory makes it easy with unique text effects and professional design tools for greater artistic control.

Once your work is complete, you can print photo-quality artwork right up to the edge of each card—on regular or glossy card stock. The results with this new process are so superior to other software products, your associates will swear your cards were commercially printed!

Of course, Art Explosion Business Card Factory is also compatible with pre-printed paper stock from Avery, Idea Art, Paper Direct and more. So your options are practically unlimited.
