

MediaNow CD & DVD Burning Suite

Featuring All of the Newest Media Technologies!

DESCRIPTION

MediaNow is the ultimate software suite for CD and DVD burning. And it's the only midrange priced solution to feature important new technologies like Blu-Ray and HD-DVD.

MediaNow is engineered from the ground up for today's CD and DVD drives. And it's unprecedented in its usability – as easy to use as it is powerful.

- **Burn music, movie and data DVDs**, complete with broad disc support. Burn onto dual-layer discs and at 16x speed.
- **Instantaneous!** with InstantBurn burning a CD is as fast as saving a file.
- **Author DVD movies and slideshows** with motion menus. A wide range of templates are included, too.
- **Watch movies in style** with PowerDVD, the world's foremost DVD playing software.

- **Copy DVDs** with virtual surround sound. Even auto-shrink 8.5 GB content onto a 4.7 GB DVD.
- **Edit videos and photos** with powerful editing tools.
- **Burn slideshows** onto CD and DVD for easy sharing.
- **Back up data** securely with password protection. MediaNow supports both Blu-Ray and HD-DVD for data.
- **Print CD and DVD labels.** Label design software is included. MediaNow even supports LightScribe technology to etch text and images onto discs.

SYSTEM REQUIREMENTS

Windows 2000, XP or Vista; Pentium II 800 MHz or faster; CD/DVD recordable or rewritable drive; sufficient temporary hard disk space to create selected media (1GB for CDs, 5-10 GB for DVDs, 15 GB for HD DVDs, 25-30 GB for Blu-ray DVDs)
