

# Disco™ Deluxe Edition

CD and DVD Burning with Drag and Drop Simplicity

## DESCRIPTION

Disco brings drag and drop simplicity to burning CDs and DVDs on your Macintosh. Whether you are backing up files, duplicating movies made with iDVD, or creating custom audio CDs, Disco does it all with its innovative and easy to use interface.

Disco also tackles a lot more than simple burns and copies. Disco's advanced features like Discography, and seamless multi-session support lets you take control of creating CDs and DVDs in ways you never thought possible.

### Features:

- **Innovative User Interface**  
Drag and drop files into an animated interface that even has interactive 3D *smoke* while burning!
- **Backup files to CDs and DVDs**  
Protect your valuable data onto CDs and DVDs.
- **One-to-One Copies**  
Copy data or audio discs in just two clicks. Even make backups of DVDs created with iDVD.
- **Create Custom Audio CDs**  
Back-up an entire audio CD or make custom CDs from MP3 or other audio files.
- **Discography**  
Keeps track of every file you burn and instantly locates what disc they are on.
- **Disc Spanning**  
Divides files across multiple discs when the files won't fit on a single disc.
- **Disc Labeling**  
Easily create and print CD and DVD labels and jewelcase inserts.
