

HGTV® Home Design & Remodeling Suite

Complete Software to Transform Your Living Space™

Home Improvement
from the #1 Television Network

DESCRIPTION

Take a fresh approach to the way you live with **HGTV Home Design & Remodeling Suite**, from the #1 home improvement television network.

This new software is perfect for creating a new living space; adding a fireplace; making your home energy efficient with new appliances; replacing countertops, cabinetry and fixtures; and enhancing any room in your house with a brand new look. You can import digital photos of your home's exterior or interior and instantly change paint colors. You can even design your dream home from scratch.

And it's easier than ever – no design experience necessary! Just point and click!

- Home Design
- Room Makeovers
- Interior Design and Remodels
- HGTV How-To Video Library
- Kitchens & Baths
- Landscaping & Tools
- Cost Estimating

Wizard-Driven Interface makes any project fast and easy. There's even free tech support!

Photorealistic 3D Technology for unparalleled visualization capacity. 3D Real View makes it possible to conduct your own virtual walkaround.

Sample Home Plans for a fast start and virtually limitless creative options and innovations. Create your own floorplan in minutes or, create your own door and window styles, cabinets, lighting and window coverings. Build in everything from electrical outlets and switches to home networking and theatre systems. Plus...automatic roof placement, complete HVAC and plumbing, easy material selection – brick, stone, siding – and more.

Easy Room Makeovers with multiple options – or you can start with your own digital pictures. Import digital photos of home furnishings – or family photos – into your one-of-a-kind design!

Hundreds of 3D Appliances, Furnishings, Lighting and More! Customize your space by selecting countertops, furniture and appliances in every style imaginable. Everything you need to plan, design, customize and create.

HGTV How-to Video Tips and a printed user guide to get you started and keep your creativity flowing.

Landscaping Tools – Choose from hundreds of plants, fences, gates and more to plan beautiful, functional landscapes.
