

# HGTV® Home & Landscape Platinum Suite

Complete Software to Transform Your Living Space™

Home Improvement  
from the #1 Television Network

## DESCRIPTION

Take a fresh approach to the way you live with **HGTV Home & Landscape Platinum Suite**, from the #1 home improvement television network.

This new software is perfect for creating a new living space; adding a fireplace; making your home energy efficient with new appliances; replacing countertops, cabinetry and fixtures; enhancing any room in your house with a brand new look; and adding decks, fountains, patios and gardens. You can even import digital photos of your home's exterior or interior and instantly change paint colors. Or design your dream home from scratch.

Home improvement is now easier than ever – no design experience necessary!

- Home Design
- Room Makeovers
- Interior Design and Remodels
- HGTV How-To Video Library
- Kitchens & Baths
- Landscaping & Decks
- Cost Estimating
- 7,500 Plant Encyclopedia

**Wizard-Driven Interface** makes any project fast and easy. There's even free tech support!

**Photorealistic 3D Technology** for unparalleled visualization. 3D Real View makes it possible to conduct your own virtual walkaround.

**10,000 + Sample Home Plans** for a fast start and virtually limitless creative options.

**Home Design:** Develop your own floor plan in minutes. Create your own door and window styles, cabinets, lighting, and window coverings. Build in everything from electrical outlets and switches to home networking and theatre systems. Plus, automatic roof placement, complete HVAC and plumbing, easy material selection – brick, stone, siding – and more.

**Easy Room Makeovers:** Start with your own digital picture. Import photos of home furnishings – even family photos – into your one-of-a-kind design!

**Hundreds of 3D Appliances, Furnishings, Lighting and More!** Customize your space by selecting countertops, furniture and appliances in every style imaginable. Everything you need to plan, design, customize and create.

**HGTV How-to Video Tips** (more than 30) and a printed user guide to get you started and keep your creativity flowing.

**Landscaping & Deck Design** – Includes fencing and gates, pathways and driveways, lighting and irrigation, gardens and gazebos, water features, barbecues and patio furniture.
